DBMS

Work Experience/Projects

MAY 2024 - JULY 2024 **Celebal Technologies** Internship

- Developed a Node.js server-side application for interacting with social media APIs, enabling automated tasks like scheduled posting, liking, and commenting.

NOV 2023- NOV 2023 **Chat App** Project

- Created a full website for ordering food at MERN, using CSS and React.js to create an eye-catching front end design.
- Architected a scalable and responsive chat application, displaying expertise in both frontend design and backend execution, to demonstrate full-stack programming competency

React,NodeJs,ExpressJs,MongoDB, HTML, CSS

FEB 2024- MAR 2024 **Food Ordering Website** Project

- Created a full website for ordering food at MERN, using CSS and React.js to create an eye-catching front end design
- Architected the front-end interface, back-end infrastructure, and payment integration for an improved user experience, demonstrating full-stack skills

React,NodeJs,ExpressJs,MongoDB, HTML, CSS

Achievements/Certifications

- I was awarded the National Means-cum-Merit Scholarship (NMMS), a prestigious scheme aimed at supporting meritorious students
- The Complete Web Development Bootcamp by Dr. Angela Yu, Developer and Lead Instructor.
- Beginning C++ Programming: From Beginner to Beyond by Tim Buchalka's Learn Programming Academy and Dr. Frank Mitropoulos.

Extra Curricular Activities

2016 **KABADDI**

- I had the honor of representing my school at the district level in Kabaddi in 2016, showcasing my skills and teamwork in a competitive environment.

2015 **Dance**

- I participated in a professionally organized inter-school dance competition held in my town.
