Work Experiences/Projects

DEC-2023

Project work : Sales Dashboard

Power BI

i have created an interactive dashboard using Power BI on a dataset regarding superstore sales, specifically focusing on data analysis techniques and time series analysis to provide valueable insights and accurate sales forecasting.

JULY-2024

Project work : Procedures for billet yield

optimisation

VISAKHAPATNAM STEEL PLANT

In this project we analysed how billets are produced from continuous casting method and also studied different procedures like casting defect minimisation, head piece and tail piece billet, cutting defect minimisation for billet yield optimisation

NOV-2023

Project work :Annual report

MS Excel

i have created a dynamic Excel project to automate budget tracking for a small business, utilizing advanced formulas and pivot tables and also demonstrated analytical skills, problem-solving, and proficiency in Excel, showcasing a valuable contribution to financial management.

Achievements/Certifications

2024
