Work Experience/Projects

2024 JUL

Technocolabs Softwares
pixel project management

Summer Intern

- Worked on the development and optimization of the project page in the Management dashboard. Collaborated with the design and back-end teams to implement new features.
- Leveraged HTML, CSS, JavaScript and react to create responsive and intuitive web page, enhancing user experience and engagement.
- Conducted code reviews and provided feedback to ensure code quality and maintainability, which contributed to the overall efficiency of the development process.

2024 JAN

Cara || Project-Link
E-commerce website Development

website

- Developed a responsive multipage e-commerce website using HTML, CSS, and JavaScript.
- The website provides detailed product pages with descriptions and key functionalities, including an add-to-cart option for seamless shopping.
- It features a blog for content engagement and a "Contact Us" form for inquiries, all within a design enhanced by an attractive navigation bar and footer.
