Work Experience/Projects

2024-APRIL **Teaching Assitant at Apna College**   **April-August**

- Aided over 100+ students in clearing more than 400+ programming inquiries related to DSA and CP.
- Helped students with DSA and OOP concepts in C++ with an average rating of **4.83/5.**

2024-JULY **AssessPro Exam Portal**   **GitHub|Project-Link**

- Built AssessPro, a web application using the **MERN** stack (MongoDB, Express.js, React, and Node.js) to streamline exam creation, grading and offers students a seamless online testing experience.
- Integrated **Redux Toolkit** for state management, **Headless UI** for components, and **Tailwind** for rapid styling. These technologies ensured a user-friendly interface with optimal performance for both educators and students.
- Implemented secure user authentication with role-based access control (RBAC) using **Passport.js.** Additionally, the platform leverages **AI** to generate diverse and high-quality questions. This resulted in improved security and more efficient evaluation.

2023-SEPT **Expense Tracker**   **GitHub|Project-Link**

- Developed a personal finance tracking web application leveraging the **MERN** stack and **Chart.js** for visual data representation and providing actionable insights.
- Constructed a seamless sign-up and login page for authentication using **JWT and Cookies** ensuring secure access and data protection.
- Allows the user to record and delete any recent transactions through **CRUD functionalities** of different varieties such as incomes and expenses.
